EasyRetriever...

...extends Your Reach

Picks up everything...

...from
cents...

...to
bricks

You'll find dozens of uses for this labor-saving, back saving device. Forget awkward stretching, bending and precarious ladder-climbing. Use the lightweight, smooth-handling EasyRetriever to clear traps and manholes of rocks and debris, to grab objects from hard to get at places, and to change light bulbs. You can even retrieve golf balls from ponds and pick fruit from trees. There's no end to the number of applications.

Plumbing Maintenance

Pull debris from traps and manholes. Clean urinals, kitchens, and hospital facilities, while protecting yourself from germ laden, infectious or hazardous material.

Industrial Maintenance

Retrieve items from high shelves and from hard to get at places. Replace hard to reach light bulbs.

Grounds Maintenance

Clean litter from parks, golf courses, shopping centers, campuses, and more without bending over or getting off of a riding mower.

CABERE® EasyRetriever

Operation

The EasyRetriever is easy to use. Just squeeze the trigger and the jaws squeeze down and hang on to objects. It's sensitive enough to pick up small screws and washers, yet strong enough to pick up a five pound rock. And with the EasyRetriever „Locking Trigger“ feature, you can grab and lock on to objects without further trigger pressure.

Construction

The EasyRetriever is made of extruded aluminium and stainless steel making it very rugged and long lasting as well as corrosion resistant. Two thermal plastic elastomer rubber cups open 11,5 cm to receive and grip nearly everything.

Many Models to choose from

The EasyRetriever is available in lengths of 80cm, 100cm and 150cm as well as lengths of 185cm, 250cm and 300cm, which fold for more convenient storage. With so many models to choose from, you'll find the right one to meet your needs.

Length	Code
80cm	50120
100cm	50121
150cm	50122
185cm (Folding Model)	50123
250cm (Folding Model)	50125
300cm (Folding Model)	50127
